Barcelona **25** Anniversary
(1998-2023)

7-9
June
2023

Exhibition for Logistics, Transport, Intralogistics and Supply Chain

The sector that makes things happen

ORGANIZED BY

ZF

CONSORCI

barcelona
ZONA FRANCA

“The celebration of the 25th anniversary coincides with a time of transformation in the sector with the implementation of technological advances that have contributed to greater efficiency and traceability of logistics, with a constant focus on sustainability that will allow new job opportunities to emerge with new generation profiles. This will provide, along with the other congresses and meetings that will be held during the fair, a unique environment in the world for the creation of synergies between professionals. We may be talking about the most important Spanish-speaking event in the world and a benchmark for the sector in Spain, Southern Europe, the Mediterranean and Latin America.”

PERE NAVARRO,
special delegate of the State to the CZFB

NUMBERS OF SIL 2023

The 25th Anniversary of SIL is based on the model of success that promotes business, networking and knowledge.

It is the only event where all sectors of the logistics chain are represented. Moreover, it is a meeting point for topics such as **Big Data, Artificial Intelligence** and **blockchain**, which are an impact on the improvement of logistics processes. The sector is experiencing a boom thanks to the new **industry 4.0**, which is also affecting other areas such as **real state, mobility** and **sustainability**.

650

Participating companies

The Region will have a very significant participation by showing its key position as a **strategic logistical node of the European Atlantic Axis**. Euskadi has infrastructures that favour the **competitiveness of the industrial sector** and that **promote multimodality** through the important port of Bilbao, the Vitoria-Gasteiz airport as one of the main national loading points, the road network and the logistics centres.

"SIL offers Euskadi an opportunity to project itself as a strategic connection point between Europe and the peninsula. Our commitment to the future is to invest in technology and people, promoting quality employment."

IDOIA MENDIA,
Vicelehendakari and Labour and Employment Councillor

- Eighth most populated region with **2.1 million** in habitants.
- GDP 2021 of **71.528 billion of euros**, that is an increase of **5,5%** over the previous year.
- Industry is the economic motor.
- Exports in 2021 grew by **23%**, with a positive balance of **4.605 billion of euros**.
- Total annual R&D expenditure of more than **1.6 billion of euros**; leading region in investment per inhabitant.

EVENT WEDNESDAY 7

Euskadi, Social, Environmental and Economic Sustainability for the Logistics of the Future

SIL Knowledge C 12:00 - 13:00

Challenges for the future of logistics based on terms such as social, environmental and economic sustainability, as well as the promotion of digitalisation, automation and new technologies linked to artificial intelligence and blockchain.

cargo management

START-UPSPACE

Specific space for startups with 50 companies represented in person. These will present their technological innovations to the rest of the professionals and participants. Some of these startups are part of the **High-Tech Logistics 4.0 Incubator***.

***HIGH-TECH
LOGISTICS 4.0
INCUBATOR**

**LOGISTICS
4.0 INCUBATOR**

The High-Tech Logistics 4.0 Incubator was created with the aim of providing services to the business, scientific and technological community in different sectors associated with the logistics value chain that are susceptible to Industry 4.0, adding technological value to both products and processes.

This initiative has different focuses on emerging technologies within the logistics sector: robotics and automated warehouses; the emergence of the Internet of Things (IoT); Big Data; the last mile; as well as 3D printing, Artificial Intelligence and green logistics.

“SIL is the showcase chosen by companies to present their latest developments and innovations. During these three days, the main decision-makers of the supply chain with a high level of purchasing power will be present. 90% of the visitors hold decision-making positions. This is another of the key features of the Exhibition, which will bring together professionals from all continents. It is the only event where all sectors of the logistics chain are represented. The professionals that attend will be able to do in just 3 days what would take 3 months of work.”

BLANCA SORIGUÉ,
General Director of CZFB
